17th SICOT Trainees' Meeting

May 14-16, 2012

Moscow
Russia

SICOT welcomes you to Moscow,
the capital of Russia!

Prof. Cody Bunger, SICOT President

The 17th SICOT Trainees' Meeting is to be held in Russia for the second time. We had successful experience with 13th Trainees' Meeting in St. Petersburg in 2002. Russia has a long tradition of being a highly active country of orthopedic research. Moscow as a capital of Russian Federation and its scientific centers has much to offer to our young colleagues. As well as its rich scientific heritage, the rich cultural intrigue of this city will most certainly have their anticipated magical effect on our guests. We look forward to seeing you in Russia!

Prof. Sergei Mironov, President of AOTRF

On behalf of the Association of Orthopedics & Traumatology of the Russian Federation, it is my proud privilege to cordially invite you to participate in the 17th SICOT Trainees' Meeting. We had been waiting for 10 years period for this wonderful opportunity – to welcome orthopedic surgeons from all over the world to Russia for the second time. This beneficial decision of SICOT is a great honor for our Society and personally for each Russian orthopedist. We will do our best to offer you the highest level of meeting, quality education and excellent conference hospitality. Leading experts from around the world will be on hand to present clinical and scientific research findings, answer questions and share expertise and lively discussion with participants.

A multidisciplinary scientific program was developed and we are sure that attendees will find the sessions both informative and stimulating. We are looking forward to seeing you, dear friends, in Moscow, capital of Russia, in May.

Prof. Nikolay Zagorodniy, SICOT Russian National Delegate

On behalf of the Local Organizing Committee, it is a great pleasure for me to welcome you to the 17th SICOT Trainees' Meeting. This meeting marks the second SICOT event in Russia with 10's year period and we are truly proud to hold it.

The 17th SICOT Trainees' Meeting will present a diverse collection of topics in instructional lectures, paper presentations, discussion groups, posters and technical exhibitions.

We would like you to take this opportunity not only to enjoy the remarkable city of Moscow, but also the country of Russia, with its rich history and friendly people.
